AKRON
Quality and reliability through design
STREAMLINE™ 225

All STREAMLINE™ products have a Safe Working Load of 225kgs and have been tested to the applicable clauses within IEC 60601-2-38 for mechanical safety and load test.

The Contourline® Upholstery feature has been developed to provide enhanced patient comfort and security. The subtle contoured shaping increases patient contact areas, improving comfort, as well as positioning the patient centrally upon the couch. Available on most models at additional cost. In addition, all STREAMLINE™ couches have been rigorously tested with a 2 x Safe Working Load (450kgs) loaded evenly, for in excess of one hour, to further prove lifting capability.

All products are tested in accordance with IEC 60601-2-38 Clause 28.4. This symbol denotes the Safe Working Load of the couch and its capability to lift the specified load from the minimum to the maximum height.

The AVRION Quality Management System is certified by Lloyd’s Register Quality Assurance (LRQA) to ISO9001:2000 and ISO 13485:2003 as identified by certificate number LRQ 4002744.

The CE marked products comply with the Essential Requirements in Annex I of EC Directive 93/42/EEC and the technical documentation is detailed within the “Technical File”.

All AVRION products featured in this catalogue have been designed to provide clearance for a mobile hoist for patient transfer procedures.

All height range measurements are from floor to top surface working height and have a tolerance of +/- 1.5cm. All angular measurements have a tolerance of +/- 5°.

All upholstery sizes for each individual section do not include hinges and have a tolerance of +/- 1.5cm. Overall lengths may be longer.

The upholstered couch sections satisfies flammability requirements to the following standards. BS7176 1995 (medium hazard) using ignition sources O (cigarette), T (gas) as defined in BS EN 1921-1 and 2 and S (crib) BS5852 1990.
Strong and rigid design with a safe working load of 225kgs, this couch addresses the requirements of a wide range of manual handling issues to benefit both patient and clinician.

Choice of models
Model 2221 – Hydraulic with retractable wheel base and manual backrest operation.
Model 2222 – Electric with retractable wheel base and manual backrest operation.
Model 2223 – Electric with retractable wheel base and electric backrest operation.

Options
- 70cm or 80cm width at extra cost
- Choice of hand or footswitch operation on electric model 2222 at no extra cost
- Contourline™ comfort upholstery

Designed specifically for ultrasound scanning and various other medical procedures the new STREAMLINE™ Ultra 3 model provides electric positioning for height, tilt and backrest operation. The new design provides a safe working load of 225kgs, with a low transfer height for ease of patient transfer.

Model 2265, STREAMLINE™ Ultra 3 fitted with optional leg supports, colour dark blue

For optional accessories please refer to the ACCESSORIES MATRIX on page 27.

AKRON STREAMLINE™ ULTRA 3
The new Echo 2 has been designed to provide a number of new features to improve clinical assessment and patient positioning. The backrest design facilitates access and clearance for the transducer during scanning procedures and can be further enhanced by tilting the couch in either a positive or negative direction.

Models Available
Model 5962 – Echo 2 Echocardiography Couch right hand scan
Model 5972 – Echo 2 Echocardiography Couch left hand scan

Model 5962, colour light blue

Negative tilt facility

For optional accessories please refer to the ACCESSORIES MATRIX on page 27.

AKRON ECHO 2 COUCH

AKRON BARIATRIC COUCH

The Bariatric couch addresses the lifting and handling problems associated with very heavy patients. The increased safe working load of 325kgs and the powered backrest facility provide the clinician with a safe means of raising and positioning the patient for medical examination procedures.

Model 4632 with optional side supports, colour bright blue (non standard)

Model Available
Model 4632 – Electric with electric backrest

For optional accessories please refer to the ACCESSORIES MATRIX on page 27.
The new STREAMLINE™ General Purpose couch (GP3) has an increased safe working load of 225kgs and has electric positioning for height, tilt and backrest operation. The foot sections can be lowered to -90° to provide more room for clinical procedures.

For optional accessories please refer to the ACCESSORIES MATRIX on page 27.

Choice of Models
Model 2274 – STREAMLINE™ GP2
Model 2272 – STREAMLINE™ GP1 Electric
Model 2271 – STREAMLINE™ GP1 Hydraulic

The new STREAMLINE™ General Purpose couch (GP2 and GP1) have an increased safe working load of 225kgs. The height and backrest are electrically controlled by handswitch with battery backup as standard on GP2. The foot sections can be lowered to -90° to provide more room for clinical procedures.
The Akron range of plaster accessories have been developed with the assistance of casting technicians and are recommended for use with the General Purpose range of couches which have proved to be the most suitable for these procedures. Both the leg roller and seat raiser can be used on most couches but the other accessories would require specific fixation brackets if required to fit couches other than the GP range.

**LEG ROLLER**
The leg roller is positioned beneath the lower limb to provide additional clearance for applying dressings and casts. It is adjustable in height.
Model A1063

**SEAT RAISER**
The reversible (RL) seat raiser provides maximum access when applying full length dressings and casts.
Model A1064

**ARM SUPPORT KIT**
The fully adjustable arm support kit can be used on either side of the couch. It is an ideal accessory for upper limb procedures.
Model A1065
Requires Fixing Kit 7318

**LEG SUPPORT SLIDER KIT**
This leg support kit provides excellent access for procedures on the lower limb. The support has height and angular adjustment.
Model A1066

For optional accessories please refer to the ACCESSORIES MATRIX on page 27.
The new STREAMLINE™ Gynae 3 De Luxe models provide electric positioning for height, tilt and backrest operation. Features include an increased safe working load of 225kgs, Contourline™ upholstery, a moulded shroud, choice of seat extension and a matching operators chair, which are all supplied as standard.

Choice of Models
Model 2256 – Gynae 3 De Luxe with fold down seat extension
Model 2257 – Gynae 3 De Luxe with removable seat extension

Model 2256 with fold down seat extension, colour turquoise

Model 2257 with removable seat extension, colour turquoise

At entry level, the new STREAMLINE™ Gynae 1 provides effective positioning for a variety of simple procedures. There is a choice of hydraulic or electric height operation. Backrest adjustment is power assisted and there is a choice of optional seat extension and accessories. The couch has an increased safe working load of 225kgs.

Choice of models
Model 2252 – STREAMLINE™ Gynae 1 Electric
Model 2251 – STREAMLINE™ Gynae 1 Hydraulic

For optional accessories please refer to the ACCESSORIES MATRIX on page 27.

Choice of Models
Model 2255 – STREAMLINE™ Gynae 3

Model 2254 – STREAMLINE™ Gynae 2 Electric with electric backrest

At entry level, the new STREAMLINE™ Gynae 1 provides effective positioning for a variety of simple procedures. There is a choice of hydraulic or electric height operation. Backrest adjustment is power assisted and there is a choice of optional seat extension and accessories. The couch has an increased safe working load of 225kgs.

Choice of models
Model 2252 – STREAMLINE™ Gynae 1 Electric
Model 2251 – STREAMLINE™ Gynae 1 Hydraulic

For optional accessories please refer to the ACCESSORIES MATRIX on page 27.
GYNAECOLOGY ACCESSORIES

FOLD-DOWN SEAT EXTENSION
Available as an option for Gynae 3,2 and 1 models and included as standard on Gynae 3 De Luxe Model 2256. This integral attachment can be positioned horizontally when raised and inserted into the sockets beneath the seat frame to extend the overall length of the couch surface when required.
Model 7333 - Fold-down seat extension

REMOVABLE SEAT EXTENSION
Supplied as standard with Gynae 3 De Luxe Model 2257 and available as a cost option for all other gynaecology couch Models. This extension may be inserted into sockets beneath the seat section to extend the overall couch surface when required and then removed and stored after use. It does not fold down.
Model 7303 - Removable seat extension

STIRRUPS
An alternative to Leg Supports for gynaecology procedures. Includes fixing kit.
Model 3295 - Stirrups (pair)

DISPOSABLE ACCESSORY COVERS
Fitting the gynaec leg supports, knee troughs, debris tray, foot section of GP1,2,3 and arm supports these covers have been designed to protect and prolong the life of various accessories.
Model 1075 - Disposable accessory covers (Box 1000)

GYNAE FOOT BOOT
For use with stirrups, providing additional patient comfort and security.
Model FB 8082 - Gynae Foot Boot (pair)

MULTI-ADJUSTABLE PADDED LEG SUPPORTS
The Multi-Adjustable Padded Leg Supports provide patient comfort in the lithotomy position.
Model 7309 - Leg Supports (pair)

OPERATOR’S STOOLS, CHAIRS AND BLOOD TEST CHAIR
This high quality range of chairs and stools all feature recovery foam upholstery for additional comfort. All models are adjustable in height. The de luxe model also includes a seat tilt function and higher backrest for additional support. The standard chair and stool are also available with a greater height range (draftsmen version) and therefore include a foot ring and glides rather than castors for additional safety and security.

Model 8500 - Standard Operators Stool
Height Range 47 - 60cm (18” - 24”) 5 star base with castors
Model 8500D - Operators Stool Draftsmen Version
Height Range 56 - 82cm (22” - 32”) Adjustable foot ring, 5 star base with glides
Model 8600 - Standard Operators Chair
Height Range 47 - 60cm (18” - 24”) Adjustable height/angle of backrest, 5 star base with castors
Model 8600D - De Luxe Operators Chair
Height Range 56 - 82cm (22” - 32”) Adjustable height/angle of backrest, seat angle adjustment, 5 star base with braked castors
Model 8800 - De Luxe Chair
This has been specially developed for clinicians and therapists who need to sit close to their patient. The ‘saddle’ seat design encourages healthy back posture and support. This adjustable height seat is easy to manoeuvre during treatments as the user’s feet are still on the ground. The seat is mounted on a five star base with castors. Height range 45 - 60cm (18” - 24”). The 8800 saddle seat is only available in black, blue or grey. All other chairs and stools can be purchased in any of the Akron colour range as detailed on page 26.

The new Akron Blood Test Chair has been specifically designed for blood testing procedures.

Model 8700BT, colour light blue

Features
- Compact Design
- Inclined upholstered arm supports with height adjustment
- Adjustable in height from 46cm to 66cm
- All castors are braked when patient is seated
- Non-Swivel design
- Adjustable angle backrest
- Seat tilt facility
- Adjustable angle headrest
- Choice of upholstery colours
Model 8700BT – Blood Test Chair

For optional accessories please refer to the ACCESSORIES MATRIX on page 27.
THEMED COUCH ACCESSORIES

THEMED STICKERS
This latest innovation provides the user the opportunity to select from a range of themed stickers to enhance the product and surrounding treatment area to therefore reduce fear for young children facing medical procedures.

Features
- Choice of themed stickers, all reusable, transferable and washable
- Ideal for applying to products with smooth option
- Will adhere to vinyl and painted surfaces

Themes available
- Undersea Adventure
  Model 7338
- Funky Flowers Model 7339
- Outer Space Model 7340
- Disney Princess Model 7341
- Jungle Safari Model 7342
- Winnie the Pooh Model 7343
- Other Disney characters on request

POWER CUT-OFF BOX
The power "cut-off" box incorporated into the mains power cable allows the operator to quickly remove power supply to the equipment by removing the pin. This facility ensures that the equipment cannot be functioned electronically until the user returns the pin to its "cut-off" box location. The pin can be attached to a cord or string if necessary.

Available on most single motor products.

Model Available
Model SF3800 - Power cut-off box

For optional accessories please refer to the ACCESSORIES MATRIX on page 27.

SHROUD OPTION
The moulded shroud provides increased hygiene as it is far easier to clean and sanitise. Supplied as standard on some models and as a cost option on STREAMLINE™ range.
Model 2007 - STREAMLINE™ moulded base shroud

HAND AND FOOTSWITCHES
Handing handswitches or footswitches are supplied on all single electric actuator couches. A choice is offered when purchasing.

TRIPLE FOOTSWITCH
Available as a cost option for couches with 3 motors such as Gynara 3, Ultra 3, and GP 3.
Model 7330 - Triple footswitch

FOOTBAR SWITCH
Facilitates easy height control from any position around the couch. Simply raise or lower the bar using foot pressure for height adjustment.
Model 1046 - Footbar switch
**IV POLE**
Can be mounted on either side of the couch and is easily removable. Telescopic height adjustment. Requires fixing kit.
Model 7314 - IV pole
Model 7320 - Fixing kit for above

**DETACHABLE HEAD CUSHION**
The foam padded detachable head cushion is available in matching vinyl to your couch or plinth. This support provides additional comfort for the patient both in a seated or lying position and can also be used beneath the lower limbs. This support is easily attached or removed by Velcro straps.
Model HC-1 - Detachable head cushion

**DISPOSABLE ACCESSORY COVERS**
Fitting the Gynae Leg Supports, Troughs, Drain Tray, Foot Section of GP 2.1 and Arm Supports these covers have been designed to protect and prolong the life of various accessories.
Model 1075 - Disposable accessory covers (Box 1000)

**HEEL PAD**
A foam padded support for lower limb procedures.
Model - HP-1 - Heel Pad

**SIDE SUPPORT PADS (PAIR)**
Providing additional comfort and safety for patients. Can be quickly and simply secured to either nylon coated or chrome side supports.
Model 1038A - Side support pads 81cm (32’’)
Model 1039 - Side support pads 61cm (24’’)

**DOUBLE FOOTSWITCH**
Available as a cost option on STREAMLINE™ models with electric backrest. Models 2223 STREAMLINE™ Mobile 2 and 2283 STREAMLINE™ Drop End.

**FOLD-DOWN SIDE SUPPORT (PAIR)**
Providing additional patient safety.
2 section couches require 89cm (35’’).
3 section couches require 58cm (23’’).
Model 1034 - Nylon coated 89cm (35’’)
Model 1036 - Chrome plated 89cm (35’’)
Model 1021 - Nylon coated 58cm (23’’)
Model 1029 - Chrome plated 58cm (23’’)

**PAPER ROLL HOLDER**
The paper roll holder permits full extension of the paper over the whole length of the couch.
Model 3294 - Paper roll holder

**PHLEBOTOMY ARM KIT**
Designed specifically for blood test procedures, these new style phlebotomy arms are supplied in pairs to fit Ultra I model or any of the STREAMLINE™ Drop End couches. The upholstered arms have a wide support surface with angular adjustment and are strong enough to support the patient as they insert or dismount from the couch.
Model 72915 - Phlebotomy arm kit (must be ordered with choice of couch as detailed)

**MOULDED ARM SUPPORT**
A multi adjustable moulded arm support for phlebotomy procedures. Requires fixing kit.
Model 7301 - Moulded arm support
Model 7320 - Fixing Kit for STREAMLINE™ models
Model 7318 - Fixing Kit for General Purpose couches (GP3, GP2, GP1)

**FACE SUPPORT PILLOW**
This contoured foam pillow provides excellent support and comfort for prone treatments, particularly around the breathing hole slot. It can be used on virtually all couches and plinths.
Model SP1 - Face support pillow and cover
Model SP1-C - Additional towelling cover (cream or light blue)

**TOWELLING COUCH COVERS**
High quality stretch towelling covers are available to fit most couches and plinths. These provide additional hygiene for patients as well as protecting the couch vinyl from body sweat and oil based products that rapidly reduce the quality and life of the upholstery. Available in cream or light blue only, refer to price list for sizes available.

**UPHOLSTERED ARM SUPPORT**
The vinyl face ring provides additional comfort for prone treatments. Available in matching colours to your couch or plinth.
Model FR-1 - Face ring

**FACE RING**
High quality stretch towelling covers are available to fit most couches and plinths. These provide additional hygiene for patients as well as protecting the couch vinyl from body sweat and oil based products that rapidly reduce the quality and life of the upholstery. Available in cream or light blue only, refer to price list for sizes available.

**DARTEX COUCH COVERS**
The new DarTEX covers are far more hygienic than conventional covers. They are water resistant, easy to wipe clean and can also be sterilised. They are fire retardant to BS177 and Standard colour bright blue, refer to price list for sizes available.

**COUCH ACCESSORIES**
For optional accessories please refer to the ACCESSORIES MATRIX on page 27.
### Retractable Wheel Base
The retractable wheel base allows the couch to be moved with ease. The adjustable foot provides stability for a couch when it is being used on an uneven surface.

### Linked Large Wheel Base
The linked large wheel base permits ‘fully rotating’ or ‘fixed wheel’ steering when being moved. Alternatively the wheel system can be fully locked.

### Shroud Option
The moulded shroud provides increased hygiene as it is far easier to clean and disinfect. Supplied as standard on some models and at a cost option on STREAMLINE™ range.

### Upholstery Sections
All upholstery sections are bolted to the frame for added security. The high quality vinyl is hard wearing and easy to clean. All edges are padded for safety and comfort.

### Contourline™ Upholstery
This feature has been developed to provide enhanced patient comfort and security. The subtle contoured shaping increases patient contact areas, improving comfort, as well as positioning the patient centrally upon the couch. Available on most models at additional cost.

### Hydraulics Models
The pedal lever for manual height adjustment can be accessed from either side of the couch and requires a pumping action to raise the couch. The lever must be raised and held in position by foot to lower the couch.

### Power Assisted Sections
Infinited lockable gas struts provide smooth adjustment of head or backrest sections by single handed operation of release lever.

### Battery Backup
A low voltage battery backup system is incorporated on all models with two or more motors. This enables limited use of the motorised functions during mains power failure.

### Pre-drilled Frames
The couch frames have been pre-drilled (and plugged) to facilitate the easy attachment of optional accessories which may be added at a later date than when purchased.
